Department Management Portal

Documentation

Prerequisites

Before reading this documentation, you should have the basic knowledge of Database Management System. A fundamental knowledge of database operations is sufficient.

Basics

Our database consists of the informations regarding Department of English, BHU. The database consists of the following tables:

-Class	All the classes of various courses
-Course	All the courses
-Faculty	All the faculties
-Login_details	Login credentials
-Notice	Important notice
-Reference	References submitted
-Student	All the students
-attends	Relation(student,class)
-fac_ref	Relation(faculty,reference)
-stu-ref	Relation(student,reference)
-teaches	Relation(faculty,class)

Website/Portal

Our portal consists of a home page, a student home page, a

faculty home page and other child pages. The home page consists of hyperlinks of various static pages and a login form, which submits you to your respective home page.

Student home page
The student home page opens with the name of the student, the hyperlinks of the courses they are enrolled in. The view attendance and marks button views the attendance and marks of the student. The update profile button yields a page to update your profile.

Faculty home page
The faculty home page opens with the name of the faculty, the hyperlinks of the courses they are teaching. The update attendance and marks button updates the attendance and marks of the student. The update profile button yields a page to update your profile.
